## COMING YEAR ESCROW PROJECTION

The purpose of the Coming Year Escrow Projection is to determine the lowest balance "Low Point" to which your escrow account will decline over the upcoming year. The purpose of the Low Balance Summary is to compare the projected and allowable low point amounts. If the projected low point is greater than the allowable low point (\*), there is a surplus. If the surplus is \$50.00 or greater, it will be automatically refunded to you. If the surplus is less than \$50.00, we have lowered your payment accordingly. If the projected low point is less than the allowable low point(\*), there is a shortage and/or deficiency which will be recovered by an adjustment to your monthly payment over a specified number of months. The adjustment amount(s) appears in the Low Balance Summary and New Payment Information.

Under Federal Law (RESPA) the lowest monthly balance in your escrow account should not exceed \$0.00 or 1/6th of the total anticipated annual disbursement from your escrow account, unless your mortgage documents or state law specifies a lower amount. When your escrow balance reaches its lowest point during the account cycle, that balance is targeted to be your cushion amount. Under the Mortgage Contract or State or Federal Law, the targeted low point in your escrow account is \$0.00 and the actual low point balance was -\$5,445.90; the amount is indicated with an arrow (<).
